### **EXPERIENCE**

Competitive Solutions, Inc.

Software Engineer

May 2021 - Present

- Fix bugs and improve UI of front end components in existing React and Ant design web application
- Refactor backend Express API endpoints and optimize Mongoose schema to increase efficiency and performance
- Develop new features based on user stories
- Create functions and scripts to clean up code and automate certain tasks
- Integrate back end with external APIs such as AWS, Twilio and business partners

Competitive Solutions, Inc.

**Product Owner** 

May 2019 - May 2021

- Lead development of three custom built websites for different clients using agile principles (<u>cbhscareconnections.com</u>, <u>mynetworktrac.com</u>, and <u>peer-rx-login.com</u>)
- Gather user requirements and translate into stories
- Create wireframes, mockups and other artifacts
- Manage sprint timelines and groom backlogs
- Test new features and enhancements
- Troubleshoot and debug
- Manage devops including: GitHub, Heroku, Twilio, Apache/Nginx and AWS (EC2, IAM, S3, SES, Route 53, Lambda and RDS)

Flatiron School Full Stack Software Engineering Bootcamp

Aug 2020 - Present

#### Technologies Covered (654 lessons, 339 labs)

**Course Projects** 

React/Redux

https://github.com/MikeBarberry-Flatiron/CatFactshttps://github.com/MikeBarberry-Flatiron/CoralCollectorhub.co

JavaScript

https://github.com/MikeBarberry-Flatiron/MenuGenerator

HTML & CSS

https://github.com/MikeBarberry-Flatiron/Wishlist

Rack and Sinatra

SQL and ORM

Ruby

Ruby on Rails

(Non-tech BA from Indiana University and MA from University College London)

## PERSONAL PROJECTS

- 1. Website hosted on EC2 with Let's Encrypt on the Apache server for secure connections. Mostly written in HTML with CSS and JavaScript
- 2. Site for displaying relationships with full CRUD functionality; also hosted on EC2. Built with PHP, JQuery and HTML forms
- 3. Full stack MongoDB, Express, React, NodeJS (MERN) application hosted on Heroku.

See my website for links to the live projects and other github repositories
