- Sinatra, Rack and ORM   https://github.com/MikeBarberry-Flatiron/Wishlist
- SQL
- Ruby
- Ruby on Rails

(Non technical BA from Indiana University and MA from University College London)

PERSONAL PROJECTS

1. Website hosted on EC2 with Let's Encrypt on the Apache server for secure connections. Mostly written in HTML with CSS and JavaScript
2. Site for displaying relationships with full CRUD functionality; also hosted on EC2. Built with PHP, JQuery and HTML forms
3. Full stack MongoDB, Express, React, NodeJS (MERN) application hosted on Heroku.

See my website for links to the live projects and github repositories
